### 8. Stage / category of document (Please indicate when / at which step is your material used)

- As general good practice:**  
your material gives a complete overview of your company's practices and policy on RSCM
- In the self-assessment stage:**  
your material gives an explanation of how a (new) supplier can assess its own supply chain practices
- In the risk assessment stage:**  
your material is used when a risk assessment is realised by your company on its supplier's practices/premises
- For audit validation and reporting / performance measurement:**  
your material is used after an audit, for correction and reporting purposes
- For continuous improvement:**  
your material indicates how continuous improvement in the supply chain is implemented and/or monitored
- For the communication with stakeholders, engagement and dialogue:**  
your material is used to enter and remain in contact with your stakeholders, to inform and dialogue about your supply chain management
- For engagement with your suppliers:**  
Your material is used to engage your suppliers in RSCM practices
- To go further:**  
Your material is an advanced example of innovative and futurist approach to RSCM

### 9. Background (Please provide the context/background against which the initiative/material was implemented)

**10. Description of Program or Activity** (Please describe the initiative/material at hand)

**11. Lessons Learned & Impact** (Please describe the lessons learned and the impact achieved by the initiative/material)

**12. Links** (Please provide links to the initiative/material or further information)
