

CONTEXT

The European sustainability framework is undergoing a significant transformation. The approval of key legislations, such as the Corporate Sustainability Reporting Directive (CSRD), the Corporate Sustainability Due Diligence Directive (CS3D), and the European Sustainability Reporting Standards (ESRS), is ushering in a new era of **heightened standards for corporate behavior and accountability**. At the same time, the rapid progression of **digitalization**, coupled with the integration of **artificial intelligence (AI)** into various business processes, and **the push to decarbonize Europe's industrial processes**, are posing profound challenges to the **resilience of the contemporary workforce**.

ABOUT THE EVENT

National CSR Networks across Europe play a key role in providing guidance and expertise to businesses. They can support companies of all size in navigating and fulfilling the corporate sustainability measures set forth by both the European Commission and national policymakers.

Building on last year's **NPO Bootcamp's session on upskilling and reskilling**, led by **Fondazione Sodalitas** and **Impronta Etica**, CSR Europe now invites its National Partner Organisations to join the **Community of Practice on Upskilling and Reskilling**. **This is the first meeting of a series aimed at exchanging insights and experiences in setting up and delivering activities aimed at assisting companies in navigating sustainability requirements, skills, and opportunities.**

Over the course of this first session on **"Building Sustainability Skills"**, participating NPOs will have the opportunity to share:

1. [Challenges faced at National Level](#)
2. [Solutions Identified](#)
3. [Sustainability Topics Selected](#)
4. [Target audience\(s\)](#)
5. [Methodology used to set up the training](#)

We will learn more about the experience of [CSR Hellas](#) in establishing the CSR School, [IRDO](#)'s sustainability certification scheme, [econsense](#)'s Competence Program and Bootcamp.

The true richness of this Community lies in the **collective input and engagement of all registered attendees over the course of the series**. At each meeting, participants are invited to leave their **camera on** and encouraged not only to listen but to **actively engage**, contributing to the conversation.

REGISTER:

To attend, [please register here](#). The event is open only to National Partner Organisations. To ensure a quality change, participating NPOs are invited to send team members in charge of setting up/delivery training activities.
