

## AGENDA

# EUROPEAN ROUNDTABLE- Towards a European Sustainable Industry Barometer

24.06.2021, 11:00AM – 12:30PM CET

## CONTEXT

After the launch of the European Pact for Sustainable Industry earlier this year, we are happy to host a second Roundtable for industry federations and associations to engage, discuss and exchange. In this specific moment in time, enterprises, large and small, and every industry federation are asked to adopt a sustainable and inclusive approach to growth, leaving no one behind, decoupling economic development from environmental degradation and shifting from a volume to a value-driven economy. **It is urgent for all industry sectors to roll out a mature and integrated sustainability strategy, as well as for Europe to draw on a clear image of the sustainability level and maturity of European industry federations.**

## ABOUT THE EVENT

This event is for industry federations and associations to **learn about how they can benefit from the new European Pact for Sustainable Industry and gradually develop and implement a holistic sustainability strategy** for the entire sector, setting the direction for the thousands of enterprises.

### Key learning points:

- Participants will learn more about the upcoming European SDG Summit, the agenda of the event, and how to actively participate.

### Who should join:

- Industry sectors and federations.
