

Context

After the first appointment of this project, CSR Europe is organising a series of two additional webinars to dig deeper on identifying the social implication generated by transitioning to a low-carbon economy, also in light of the global pandemic of COVID-19.

The first webinar of the series, *'A Just Transition to a Low Carbon and Inclusive Society – focus on Jobs and Consumption'* will take place on May 26th from 11:30 to 13:00 (Brussels time).

This webinar will focus on the two aspects of:
(1) Jobs & Employability
(2) Consumption

Which are the main implications related to Jobs and Consumption? Which are their root causes? Which solutions can be developed at company and collaborative level?
