The EU Non-financial Reporting Directive Platform, organised jointly by GRI and CSR Europe, is an informal platform for businesses and civil society to share the latest policy developments and initiatives supporting or hindering an effective implementation of the EU Directive on non-financial reporting across all EU Member States.

The deadline for Member States to transpose the EU Directive for non-financial information disclosure was reached last December 2016. On the 14th of December CSR Europe has brought together a number of enterprises and stakeholders to discuss the state of reporting and the implementation of the new legislation across Europe. Representatives from the European Commission informed about some new initiatives coming into action in 2017. Following the seminar, this webinar will provide to a broader group of stakeholders the latest updates on the transposition and the state of reporting across Europe.

**Join this webinar, in order to:**

- Get an update from different countries on the transposition and implementation of the EU directive
- Learn about reporting requirements and how the GRI standards and CSR Europe support companies in reporting
- Participate in an open discussion on reporting requirements and about the most needed support for companies and investors in Europe

Please note that this is an open webinar. It is recommended for companies, NGOs, CSR Europe’s National Partner Organisations and the public. Due to limited technical capacity some registered people might not be able to connect, in that case we will share the recording and the content of the webinar.

**TIME** | **AGENDA**
---|---
15:00-15:05 | Welcome and introductory remarks
15:05-15:20 | The implementation of the directive: focus on reporting by CSR Europe and GRI
